STAGE is a cloud service for enterprise real-time 3D conferencing. It combines the ease of virtual meetings with 3D content using CAD data, Unity or Unreal environments. Join the conference via PC or Virtual Reality devices.

Why STAGE? With STAGE, users can quickly and easily set up real-time 3D conferencing sessions between multiple locations. The connection with a user authentication ensures that only an authorized group of people can access the data. During the meeting, metadata such as annotations and screenshots can be created. These can be processed and reused in later presentations.

STAGE benefits:

- Easy and quick one-time installation procedure for your colleague or customer
- All participants navigate freely with mouse, keyboard or VR to explore different perspectives
- Improved understanding through interacting within the 3D model
- Use voice chat and in-built tools like pointers, active scene tree, measurements and clipping planes to communicate efficiently
- Best performance through fast 3D data rendering; low latency transmission of individual interactions and movements
- Join the conference via PC or unleash the full power of 3D with a virtual reality headset

Service infrastructure

Scalable cloud service

User management & meeting invitation

Secure & GDPR compliant service

STAGE products for your individual 3D data and use-case:

For your adhoc 3D CAD product and project reviews

Load all major CAD formats instantly and start your meeting

Experience and analyze your future factories anywhere

Live connect with Visual Components Premium and start your meeting

Use the full potential of Unity and engage with teams, partners and customers

Create your meetings directly from the Unity Editor

Use the full potential of Unreal and engage with teams, partners and customers

Create your meetings directly from the Unreal Editor

Supported CAD Formats (March 2021)

Format	Version	Extensions
Autodesk DWF	Any	DWF, DWFX
Autodesk Inventor	Up to 2020	IPT, IAM
CATIA V4	Up to 4.2.5	MODEL, SESSION, DLV, EXP
CATIA V5	R18 to R29	cgr, CATPart, CATProcess, CATProduct
CATIA V6 / 3DEXperience	Up to V5-6 R2019 (R29)	3DXML
Creo - Pro/E	Pro/Engineer 19.0 to Creo 6.0	ASM, NEU, PRT, XAS, XPR
IFC	IFC2x Editions 2, 3 and 4	IFC, IFCZIP
IGES	5.1, 5.2, 5.3	IGS, IGES
JT	8.1 to 10.7	JT
NX - Unigraphics	V11.0 to NX 12.0, and 1847	PRT
Solid Edge	V19 - 20, ST - ST10, 2019	ASM, PAR, PWD, PSM
SolidWorks 4	From 97 up to 2019	SLDASM, SLDPRT
STEP	AP 203 E1/E2, AP 214, AP 242	STP, STEP, STPZ
STEP/XML	Any	STPX, STPXZ

Our Services around STAGE

Experience the complete vr-on STAGE portfolio and its unique opportunities for your future real-time 3D conferences. We provide full support for the installation and process integration for your organization. Contact us now for an online demonstration or a consultation at our showroom in Dieburg, near Frankfurt, Germany.
